CANVASSING THE VOTE

Both Parties Still Claiming the Ohio Legislature.

NOTICES OF CONTESTS FILED.

Protests Made and Every Point Is Being Contested in the Official Count of the Close Counties—Governor Bushnell's Plurality Has Increased—Returns From the Elections Held in Other States.

COLUMBUS, O., Nov. 5.—As the official canvass of the vote in the 88 counties proceed the Republican plurality on the state ticket increases, and on the legislative tickets it appears to be getting toward a very close shave. While the Republican plurality on the state ticket exceeds 28,000, the vote on the legislative ticket is almost as close as it could be. For this reason there is still unusual anxiety at the respective state headquarters of both parties.

The Republicans still claim that the legislature stands 75 Republicans to 70 Democrats on joint ballot for senator and that their candidates for representatives in three of the close counties have been elected by the following pluralities: Delaware county, 29; Wood county, 28; Noble county, 85—a total of 143 in the pluralities of these three counties. A change of 72 votes, properly distributed in these three counties, would therefore have turned the result in the legislature by giving these three representatives to the Democrats. Then the legislature would have stood 72 Republicans and 73 Democrats on joint ballot for senator.

When it is remembered that the total vote of Ohio last year was over 1,000,000, and is almost 1,000,000 this year, it is readily seen that 71 is such a small percentage that it can not be clearly expressed in figures, or fractions, or language. And this is what makes the Democratic state committee continue to claim the legislature, and both state committees to be so closely on guard in watching the counting in the close counties. The official count of Delaware county is in, but with protests and notices of contest from the Democrats, and the same is true of Noble county. The official count of Wood county may not be completed till Saturday, although they expect to get through today.

In Wood county the Democrats protested against the vote of a precinct where the place of voting was outside of the precinct, but within the ward. Had this precinct been thrown out it would have elected the Democratic candidate for representatives by a plurality of 5 instead of the Republican candidate by 28. The vote of the precinct was counted and the Democratic protest filed. Other technical ties are expected in the progress of the vote in that county.

In Noble county there was a long contest over 27 scratched tickets that were finally thrown out because they were not properly marked. This was a Republican loss. Every point is being contested in the official count of the close counties.

Chairman Nash says the Republicans have a safe majority of five on joint ballot in the legislature. He admits that the pluralities are small in some counties, but claims they are safe. He has no doubt of the result in any of the counties which he claims except possibly Wood county, and in the event of the loss of that representative, he says the legislature would still stand 74 Republicans to 71 Democrats and have a majority of three on joint ballot for senator. Chairman Nash said the returns from the Thirteenth district showed that the Republicans had a plurality of 432, so that there is no longer any of the state senators in doubt, and the senate will stand 19 Democrats to 17 Republicans. At Republican state headquarters, Summit county is not considered so doubtful as heretofore, and its two representatives are being conceded to the Democrats. This would make the house 58 Republicans and 51 Democrats.

Chairman McConville does not admit that the Republicans have carried the Thirteenth district for their candidate for state senator, and he still claims the representatives from Noble, Delaware, Wood, Muskingum and other counties claimed by the Republicans. He also expects the official count to give the Democrats two of the 12 members of the legislature from Cuyahoga county. In all these counties and in others he says there will be contests for the seats in the event of the certificates of election being given to the Republicans.

Chairman McConville charges fraud in the close counties and in some Republican counties. He says nearly all the close counties have gone Republican heretofore and the Republicans still have the machinery in those counties. He says the returns have been held back and it looks suspicious. Other counties have completed their counting, while the doubtful counties are still at it. He says he can not get definite results from Cleveland, where he expects the vote to be very close on two or three members of the legislature. Chairman McConville will remain here on duty until the official count of all the counties is completed.

KENTUCKY.

Shackelford's Plurality in the State Will Be More Than 10,000.

FRANKFORT, Ky., Nov. 5.—The official count of Kentucky's election will make little change in the present estimates. Shackelford's plurality in the state is more than 10,000.

Seventy of the 100 members of the new house of representatives will be silver Democrats and at least 20 of the

88 senators will be of the same party, making the vote on joint ballot in case of an accidental senatorial election 90 to 48.

Seventeen of the 19 senators who will hold over four years and vote for senator in January, 1900, are silver Democrats and virtually are already pledged to Blackburn, who is already announced as a candidate to succeed Lindsey.

MARYLAND REPUBLICAN.

No Prospects of Senator Gorman Being Re-Elected By the Legislature.

BALTIMORE, Nov. 5.—An official count of the ballots cast on Tuesday last, made in most of the counties, leaves no further room for doubt that the Republicans have control of both branches of the legislature and that a Republican will succeed Arthur P. Gorman in the United States senate. Five members of the assembly and one senator were taken from the Democratic list of probabilities, and added to that of the Republicans. Three of the members and the senator are from Talbot county, and one member each from Prince Georges and Carroll. This gives the Republicans 49 members in the house, and the Democrats 42. It also gives the Republicans 18 senators to 8 for the Democrats and a majority on joint ballot of 17.

Among those most prominently mentioned as the probable successor to Senator Gorman are Alexander Shaw, former Congressman John V. L. Findlay, Postmaster General Cary and Congressman Sidney E. Mudd.

DES MOINES, Nov. 5.—The complete unofficial returns of Tuesday's vote are: For Governor, Shaw (Republican), 224,555; White (Democrat), 193,567; Populist (Middle of the Road), 5,930; Gold Democrat, 5,484; Prohibition, 10,692. Total, 440,198. Shaw's plurality, 30,988.

DEED OF A DESPERADO.

Three Persons Beaten to Death in Jackson County, West Virginia.

PARKERSBURG, W. Va., Nov. 5.—News has just reached here of one of the most horrible crimes ever committed in this part of the country, which was perpetrated near Ripley, Jackson county. Tuesday evening a widow, her young son and her daughter were murdered in cold blood. At least the first two are dead and the daughter at last accounts; could not live from the effects of her terrible injuries.

The perpetrator of this awful deed is a young man who had been raised by the woman he murdered. The widow Green, the eldest victim of the murderer's fury, lived on a good-sized farm about 10 miles east of Ripley, or Jackson O. H. Living with her were her son and two daughters. The son was James Green, being the widow's child by her second husband, and the daughters by her first husband, being named Pfoot. The widow had raised from boyhood a young man of 19 or 20, named John Morgan. A short time ago Morgan left the family and had gone to reside with some relatives.

Tuesday Mrs. Green sold a horse to a neighbor for \$50, receiving the cash in payment. That evening about dusk Morgan came to the Green farm. He had armed himself with a stout club. Young James Green, who is about 20 years old, was in the farm yard engaged in feeding the cattle. Morgan slipped up behind him and gave him a blow on the head that must have proved fatal instantly, as young Green fell like a log and never stirred again. Morgan went into the house and encountered Mrs. Green and her daughter, who in turn received mortal blows from Morgan's club.

The news of the terrible crime spread like wildfire and in a short time the hills were covered with indignant citizens hunting Morgan. The \$50 was gone and the presumption was that he had taken it. robbery having been the motive of the triple murder. Morgan was soon found and dragged from his hiding place in the woods by the excited populace. Throats of lynching were loud and numerous and the prisoner had to be closely guarded. An attempt was made to get him to Ripley, but the news coming that a mob was gathering to lynch Morgan, it was decided to take the prisoner to Spencer, placing him in the county jail. The feeling against the accused is very strong and fierce. He may yet be taken out by a mob and strung up to the nearest tree.

DRIVEN OUT OF THE STATE.

A Man Strung Up in His Barn and Compelled to Confess a Crime.

ELWOOD, Ind., Nov. 5.—One week ago this part of the state was startled by alleged midnight assaults on the residence of Charles Waymire, northeast of the city. For four nights the house was bombarded with rocks and the doors broken open. A vigilance committee worked night and day to capture the supposed assailants, but found no one.

The affair created intense feeling. Late Wednesday night a band of prominent Elwood business men secretly visited the Waymire home and solved the mystery. Lying in wait they saw the entire affair repeated as on the nights previous.

The citizens entered the house and captured Waymire, who fought like a demon, but was overpowered and dragged to a barn. He refused to confess, and the use of a hay fork and rope was brought into play. Waymire was strung up, and remained suspended until out of breath. He was let down, but still refused to explain. Going up a second time, he motioned to be let down, and then confessed that he had, with the assistance of others, caused all of the assaults.

He was ordered to leave the state, and went to Illinois yesterday to reside.

AGED COUPLE ROBBED

Visited at Midnight by Three Masked Men.

COMPELLED TO HAND OVER \$45.

They Also Stole a Suit of Clothes, Two Watches and a Pension Check For Thirty-Six Dollars—Prisoner Removed For Safekeeping—Railroad Men Injured. Other Ohio State News.

NEW HARMONY, O., Nov. 5.—Jephtha Anderson and wife, aged people living two miles south of here, were awakened at 2 o'clock yesterday morning by a knock and a voice at the door. Anderson went to the door and was confronted by two masked men, who covered him with revolvers and compelled him to hand over \$45, all the money he had.

Meanwhile, a third robber pried open a window, entered a rear part of the house, and stole a suit of clothes, two watches and a pension check for \$33. Anderson and wife, who live alone, were so badly frightened that they failed to make the robbery known for several hours afterward, and the robbers escaped.

REMOVED FOR SAFEKEEPING.

The Negro Who Shot Judge Markley at Georgetown, O., in Cincinnati Jail.

GEORGETOWN, O., Nov. 5.—The condition of Common Pleas Judge John Markley, who was shot by John Davis, colored, is considered by those who have been constantly in attendance at his bedside as very hopeful. The physicians, while they say it is too early as yet to tell, take a more hopeful view of the case than at any time since the judge was shot.

Davis was taken to Cincinnati and lodged in the Hamilton county jail by Sheriff J. V. Campbell of Brown county and Thomas C. Teal of Clermont to protect him from mob violence, which was feared at the hands of Georgetown citizens.

RAILROAD MEN INJURED.

Bridge Carpenter Badly Hurt and a Conductor Loses a Hand.

HAMERSVILLE, O., Nov. 5.—Patrick McClanahan, aged 40, a bridge carpenter on the Cincinnati, Georgetown and Portsmouth railroad, fell from the White Oak trestle yesterday, a distance of 65 feet, breaking both legs and one arm and receiving internal injuries.

Frank Myers, a Cincinnati, Georgetown and Portsmouth freight conductor, while coupling cars at Diamond Switch yesterday, had his right hand crushed so badly that amputation was necessary.

Living With a Dislocated Neck.

CHILLICOTHE, O., Nov. 5.—W. R. Conway, a Baltimore and Ohio Southwestern brakeman, fell off a caboose yesterday and was brought here in an unconscious condition. His neck was dislocated and attempts to save his life are being watched with interest by the medical profession. His body has been suspended with the hope that the dislocated vertebrae will assume their former position. There has been no change for 24 hours in his condition.

Struck by a Train.

JACKSON, O., Nov. 5.—Samuel Blum, farmer and stock dealer, residing at Beavertown, while driving across the Ohio Southern railroad track, two miles north of town, was struck by a south-bound passenger train. The engine struck the horse, instantly killing it, and demolishing the buggy. Mr. Blum sustained injuries from which his recovery is doubtful.

Clay Contractor Killed.

AKRON, O., Nov. 5.—Permenas Sprague, a clay contractor, was caught beneath a fall of clay in a bank yesterday afternoon, and instantly killed. He was buried beneath hundreds of tons of earth, and nearly every bone in his body was broken.

REINDEER TO THE RESCUE.

Threatened Famine in the Yukon Valley Will Be Relieved.

CHICAGO, Nov. 5.—The threatened famine in the Yukon valley will be relieved. Dr. Sheldon Jackson, en route from the Klondike to Washington, said that the recent order of Secretary Alger to Lieutenant Colonel Randall, in command of the military reservation at St. Michael's, directing him to use the reindeer for hauling food to the miners, will save much suffering.

Dr. Jackson has in the herd 200 head of reindeer trained to harness. He also has two Lapps and several Eskimos, experienced in driving deer, which he can

turn over to Lieutenant Colonel Randall. He further states that the present exigency appeases the urgent need of procuring trained reindeer in larger numbers—that the mines of Alaska are so peculiarly situated that they can not be supplied with a continuous and adequate food supply until reindeer transportation is systematically organized on a larger scale.

YELLOW FEVER NOT ABATING.

Seven Deaths and Forty New Cases in New Orleans—Elsewhere.

NEW ORLEANS, Nov. 5.—The yellow fever situation has not improved any and the unfavorable turn of affairs following in the wake of the cold wave and the light frost is very disappointing to Dr. Olliphant, president of the board of health. He reiterates, however, that the effects of the cold snap will become apparent in a few days. The record shows the number of fatalities to be seven, and there is no let up in the new cases, there being 40 reported during the past 24 hours, as follows:

EXTINCTION OF SALMON.

Commander Moser Finds a Serious State of Affairs in Alaska.

SAN FRANCISCO, Nov. 5.—The United States fish commission's steamer Albatross has arrived from Alaskan waters. The report of Commander Moser will say that the Alaskan salmon will disappear if there are not efforts made to propagate the fish and restock the waters. This is recognized by the packers, and some of them are now maintaining private hatcheries to fill the stream from which they draw their supplies.

The output of the Alaska packers was 1,000,000 cases of 48 pounds each, or 48,000,000 pounds of canned salmon. This year there will be a material falling off. It is understood that Commissioner Brice will ask congress for enough money to establish hatcheries, and thus keep alive the salmon in the northern waters. Commander Moser reports that many shad in these waters were caught in the traps of the Alaska canneries this year.

Counterfeit Silver Dollar.

WASHINGTON, Nov. 5.—The treasury department has been advised of the circulation of a counterfeit silver dollar at many points in the west. It is dated 1888, bears the New Orleans mint mark, the lettering is large and poorly formed and the breast of the eagle on the reverse side is entirely smooth, no attempt being made to give it the feathered appearance of the genuine.

SPANIARDS DEFEATED

Cuban Insurgents Have Won Several Victories.

SPAIN DEFIES THE UNITED STATES

She Will Use Her Own Pleasure About Granting Autonomy to Cuba—She Will Also Resist the Competitor Claims. General Weyler May Be Impeached. Other Cuban War Dispatches.

NEW YORK, Nov. 5.—A dispatch to The Herald from Havana says: The rebels in the field are very active. On Oct. 30 the Spaniards sustained the most severe loss they have met for some time. On the borders of Matanzas province General Molina was defeated by the insurgents under General Betancourt. General Molina was on his way to Havana, accompanied by half a brigade of troops, to participate in General Blanco's reception. At Aguacate he heard the rebels were encamped in the Purgatorio hills and broke his march to attack them. The fight was a long one and the Spanish loss was tremendous. He was finally obliged to retreat.

A report, apparently well founded, is current in Havana to the effect that Holguin has been attacked and captured by the insurgents under General Cebreco. That it has been attacked and 75 Spaniards killed is admitted, but the capture is denied. General Laque, with heavy reinforcements, left Havana yesterday for Holguin.

In Pinar del Rio province, the rebels under command of Captain Lores, attacked a convoy that left San Gayetano and captured a large supply of clothing and ammunition. The town of Consolacion del Sur has also been raided and several houses burned. On Oct. 23 a small expedition landed near Bahia Honda.

SPAIN STILL DEFIANT.

She Will Resist the Claims of the United States in the Competitor Case.

MADRID, Nov. 5.—The Spanish cabinet has now decided to reply to the United States minister's acknowledgment of the receipt of the Spanish note in reply to the representations of the United States on the subject of Cuba, declaring in guarded terms that in reference to granting autonomy to Cuba, Spain will do what she deems fit.

It is also understood that the Spanish government is determined in the case of the American schooner Competitor, captured in Cuban waters in April, 1896, to maintain that the Spanish officers acted correctly in making the capture of the Competitor and that the protocol of 1877 solely referred to American citizens residing in Cuba.

MACEO'S FIRST FOLLOWERS.

Out of the Original Forty-Two Only Three Survive.

NEW YORK, Nov. 5.—The Journal and Advertiser says: Of the 42 persons who landed with General Maceo near Baracoa, Cuba, nearly two and a half years ago, only three survive; the others, including General Maceo, have died either on the battlefields or in the hospitals or prisons of Cuba.

Two of the survivors are young Americans—Frank Agramonte and Julia Sainz. Word has been received in this city that through the efforts of Dr. Pulaski F. Hyatt, United States consul at Santiago de Cuba, they have been released from Castle Moro and will sail for New York on next Saturday.

Opposed to Autonomy.

KEY WEST, Fla., Nov. 5.—The Cuban population of Key West made a great demonstration against the acceptance of autonomy from Spain last night with a grand torchlight procession and addresses by prominent Cubans at San Carlos Opera House. Strong resolutions were adopted against accepting autonomy. Among the transparencies in the procession were "Independence or death," and "Down with autonomy." Houses all over the city were decorated and presented a gala appearance.

Weyler Delayed on His Trip.

HAVANA, Nov. 5.—Word has been received here that the steamer Montserrat, with Lieutenant General Weyler on board, arrived at Gibara, on the north coast of Cuba, 100 miles east of Puerto Principe, on Monday. Her engine was disabled, but it was expected at the time the message was sent that she would sail for Puerto Rico on Wednesday.

City Enjoined.

INDIANAPOLIS, Nov. 4.—Judge Baker of the United States court has issued a temporary restraining order against the city of Peru from enforcing an ordinance cutting down the rates charged for natural gas. The Logansport and Wabash Valley Gas company, who bring the suit, allege in their petition that \$250,000 that has been invested in the city of Peru will be confiscated if the ordinance is enforced. The case will be heard Nov. 10.

This gold combine in Kentucky went glimmering.

The Democrats didn't go low in New York, either.

It was a grand fight the Democrats of Mason made all along the line, and their victory is a glorious one.

FRANKLIN County gave Shackelford 1,150 plurality, the biggest Democratic plurality in the history of that county.

What presumption for the Republicans to suppose that the people of Mason County were going to retain them in control of the county offices!

That victory in New York was a big thing for Tammany. More than 55,000 persons will directly or indirectly draw pay from the city in the first administration of the Mayor of Greater New York. The salary of 33,000 of these whose names will be actually on the city's payroll will aggregate \$33,000,000.

The official count is necessary to decide who has won in the race for Commonwealth's Attorney. The latest information is that the majorities in the various counties of the district foot up as follows:

For Daum.....\$18
 For Sallee.....\$15

This leaves Daum a majority of only 3. The official count which is being made to-day may elect Mr. Sallee.

THE RESULT IN FLEMING.

Almost a Tie Vote For Several of the Offices—Official Count Required.

Shackelford carried Fleming County by only three majority. Judge Harbeson had seven majority and Commonwealth's Attorney Sallee 20. J. S. Hood defeated Geo. T. Beckett, the Democratic nominee for Representative, by twenty-four majority.

Judge Boone was re-elected by nineteen majority. J. B. Cumber, formerly of this city, defeated Hou. A. O. Stanley for County Attorney by over 100 majority.

E. H. Kenner, Republican, was elected County Clerk and C. E. Rhodes, Democrat, Circuit Clerk, by three and four majority, respectively. W. D. Scott, Democrat, has a margin of 70 for Sheriff. J. D. Paris, Republican, has 131 majority over John Ryan for Jailor and W. M. Collins, Democrat, fifteen majority over J. S. Swartz, for Assessor.

The official count may change the result in several cases.

THE KENTUCKY ELECTION.

Comments of the Press on the Result in This State—How the Editors View It.

Louisville Dispatch: "The victory in Kentucky has a meaning which might as well be understood. It means that 'the balance of power' is in the hands of the Democrats to stay. The Democratic party has shown that it is in the majority, and has the right to control the destinies of the State. It has an overwhelming majority in the Legislature, which gives it the power to legislate. The public may rest assured that it will use that power to give the people good government, and to continue the rule of honesty and intelligence in the State for the future. Gov. Bradley will stand out in the history of Kentucky as the only Republican Governor in a half century. He will be succeeded by a Democrat. Senator Deboe will enjoy a like unique distinction as a political curio. A Democratic successor to Lindsay will be elected and his name will be Joe Blackburn. The people have had one taste of Republicanism in the State, and a full dose of it in Louisville, and it will take more than a quarter of a century for them to so far forget it as to take risks on division again. Hereafter Louisville Democracy and State Democracy will mean one and the same thing, and the decision of the majority of the party will be accepted as the party law. The occupation of the political trader between the lines is gone. The guerrillas and the bushwhackers have been absorbed by the one army or the other. The traitors have been dealt with according to the usages of war and shot with straight Democratic bullets. Hindman's race ends the faction for which he stood, and it can choose between Democracy and Republicanism. Parker's race ends the faction for which he stood, and it must likewise choose. Of course there is no law to prevent as many factions as may be formed, but the beauty of it is that Democracy is stronger than all factions and the Republican party combined. The election Tuesday was but a foretaste of what is to come. The Democratic party will from this time forward grow stronger, and in 1898 it will carry the State by 50,000 majority. When 1900 comes all the money of the trusts and combines and all the hosts of treason and corruption will not arrest its forward movement. Kentucky is redeemed, and her Democracy will hereafter stand like Gibraltar—a rock of invincible strength—for the cause of the people."

Louisville Post: "The returns from the election in this State merely indicate what a united Democracy may secure, just as last year and the year before they demonstrated what a divided Democracy could lose. Two years' experience with Republicans in local and State affairs has satisfied the people of this State for a generation. * * * Let us move forward once more a united Democratic party. We should put behind us the issues that divide us and push to the front those issues upon which we are united. The Democratic party belongs to the future; the future belongs to the Democratic party."

Carlisle Mercury: "We have no disposition to rejoice over the defeat of any of the candidates of Tuesday, but it is a source of rejoicing to know that the Democracy of Nicholas intends that its voice shall be respected, even if some of its chosen representatives undertake to betray it. We had the disgraceful spectacle of members of the Democratic Committee fighting candidates that they themselves declared to be the lawful candidates, but it is a double source of rejoicing that these recreants have been discovered, defeated and discharged. Hereafter the Democratic Committee will be composed of true Democrats who will not shamelessly fight their own creations."

FRANKFORT, Ind., Nov. 5.—While attempting to rescue her little companion from death, 14-year-old Eunice Miskell, of this city, was killed at 3:50 o'clock yesterday afternoon. Eunice, with Eva Toney, was returning home from school, when Eva started to cross the Lake Erie track, not noticing an incoming train. Seeing her little friend's life was in danger, Eunice sprang forward, pushing Eva from the track, but getting too close herself. Her skull was crushed and she died instantly. Eva Toney was but slightly injured.

When any part of the body isn't doing the work that nature intended it to do, it puts the whole system out of tune—out of harmony. Sicknes in one part of the body is likely to run into all parts of the body. When children stand a row of bricks on end, they knock the whole row down by upsetting one brick. That is exactly what happens to the health when the bowels fail to perform their proper functions. Constipation makes trouble all along the line—puts the liver out of order, it hads for the kidneys—bad for the stomach. It holds in the body poisonous matter, and because it cannot go any place else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, lassitude, bad breath and foul taste in the mouth, fills the stomach with gas and causes windy belching, stops digestion in the stomach, causes sour stomach, heartburn and headache. You can avoid all such trouble, for Dr. Pierce's Pleasant Pellets cure constipation and its attendant evils.

Eternal happiness and matrimonial bliss is the earnest wish of the Raven."

The Mills Hotel recently opened in New York furnishes a bath, an elevator, steam heat and electric light, an enameled iron bedstead and a curled hair mattress, a sitting room and a library for 20 cents a night. This hotel was erected by the millionaire, D. O. Mills, for the purpose of furnishing healthful and comfortable homes for men of small means at small expense. When it was opened for the reception of guests fifty men were waiting at the great doors, each eager to be the first to register.

MR. J. W. ELGIN, of Flemingsburg, has been appointed General Manager for Eastern Kentucky of the Massachusetts Mutual Life Insurance Co., with headquarters at 210 1/2 Court street. He will take charge of the business at once, but will not move his family to this city until next spring. If you contemplate taking out any insurance, call at his office. He will take pleasure in giving rates and plans.

Mackintoshes!

Ugly weather ahead, lots of it, 'till we get the full quota of rain, so long delayed. That means Mackintosh time. We know what's expected of this store and we're ready to help folks to comfort and safety. You will notice improvement in the style and make-up of these garments and there's a noticeable easiness about the prices, too. Here's a word of some. Zenda Mackintoshes, cashmere or cravenette face, double texture, plain, Klondyke or inlaid velvet collars, double detachable cape or Zenda cape, full skirt, plaid or solid lining, black, blue, green, garnet, \$3.50, \$3.00.

CAPIES do not suffer from changes in fashion like jackets, and there are so many times one needs such a wrap. That's the reason for our great cape selling, for the great stocks we gather. They are principally imported because capes are one of the things foreigners make in most ways best. But that doesn't elevate the price. Cloth capes from \$2.50 to \$20. Velvet and Zealotte capes from \$5 to \$35.

THE HANDKERCHIEF FAD for lace footing edges is gaining popularity. RURAL FREE DELIVERY.

The Experiments Made by the Postoffice Department Have Proven Very Satisfactory.

[Harpers Weekly.]

It is reported that the experiments which have been made by the Postoffice Department in the free delivery for rural letters have, so far, resulted very much to the department's satisfaction.

Fifty thousand dollars was appropriated last winter by Congress for this use, and tests of the feasibility of the plan were made in various parts of the country. Early reports which have come in, especially from some districts in Maine and Vermont, tell of the satisfaction of the farmers with the new service, and of their willingness to profit by it. It is found that they take many more daily newspapers when they can have them delivered, and also that the number of letters carried shows a vigorous increase.

The rural carrier makes one trip a day over a distance of between sixteen and twenty-four miles. He supplies his own conveyance—horse and cart or bicycle. It has been found that responsible men are willing to do this work for an annual stipend ranging from \$175 upwards, the average pay being about \$300.

It is estimated that at that rate \$50,000,000 (about half the annual pension bill) would provide rural free delivery all over the United States. That would mean, among other things, employment of 200,000 persons.

The rural carriers are allowed to take out their stipend by any supplementary enterprises that do not interfere with their duties, as to selling stamps or stationery and receive and deliver express parcels or telegrams. When farmers live some distance from the road their mail is left in boxes at convenient points by the roadside, from which letters are collected.

THE NEWSPAPER AS A COLLEGE.

President Eliot's Opinion of the Newspaper Education.

The opinion entertained by a great many more or less prejudiced persons that a good newspaper office is the best school going seems to gain some justification from certain passages in the newly issued volume of essays and discourses by President Eliot, says Harper's Weekly. Discussing wherein modern education has failed to do all that was expected of it, Dr. Eliot says:

"These, then, are the four things in which the individual youth should be thoroughly trained, if his judgment and reasoning power are to be systematically developed; observing accurately; recording correctly; comparing, grouping and inferring justly; and expressing cogently results of these mental operations."

To observe accurately and record correctly are the particular things in which every reporter for a good newspaper is drilled every day, and he does not get far in his business without getting practice, almost as regular, in comparison, inference and cogent expression.

If practice in these things is the best thing for the judgment and reasoning power, we ought to be thankful that so much of it goes to equip the newspaper man for his momentous job of superintending all creation. There is no class of men in the country, whose state of mind is of more importance to us than the newspaper men. It is a comfort to be able to infer from the statements of authority that there is no class that is in a better way to have its mind developed. Of course, all pupils are not scholars, and the fact that newspapers constantly print inaccurate reports and draw unwarranted inferences, only means that the task is quite difficult, and that the learners do imperfect work.

We Knew We Had a Good Thing

In the stock of fine Clothing we recently bought by electric light. There is so much clap-trap Clothing advertising in vogue at present that we refrained from saying too much about this purchase. We simply called your attention to it and said look in our window display, see the goods and note the CASH price on them. We knew we would sell some of them; the continued warm weather left a doubt as to selling a great many now. The doubt is dispelled. Since the day we opened this purchase and made our window display our store has been crowded with customers anxious to secure these unheard-of bargains.

We advise our friends who contemplate buying a Fall or Winter Suit and Overcoat not to let this opportunity slip. It is only one in a long time where circumstances arise that enable merchants to secure

PROVED FATAL.

Mr. S. F. M. Walker Dies of Lockjaw Resulting From the Injury Received Some Days Ago.

Mr. Marion Walker died shortly after 6 o'clock this morning at his home, corner of Forest avenue and Commerce street, of lockjaw.

A week ago last Monday Mr. Walker was cutting a piece of timber at Mathews & Co.'s mill when his right hand was accidentally caught by the saw and badly mangled, necessitating amputation at the wrist.

He soon rallied from the shock and got along remarkably well until last Wednesday morning, when he was seized with lockjaw, lingering until this morning at the hour named. While he suffered greatly yesterday and last night, yet his end was a peaceful one.

Deceased was born in Fleming County, January 16th, 1827, and was consequently seventy years of age. Most of his life was spent in this city, where he was for years engaged in business as a florist. His wife, who was Eliza Burriess, died years ago. He leaves but one child,—Mrs. W. H. Frederick, of East Second street.

The funeral will occur to-morrow afternoon at 2:30 o'clock at the residence. Burial in the Maysville Cemetery.

Changed Its Name.

The Ohio River, Frankfort and Western Railway Company, of Dover, has filed in the office of the Secretary of State a request that the name of the road be changed to the Dover, Kentucky and South Atlantic Railway Company. This is one of the branches of Col. Albert Boone's great "Black Diamond" system, and the change in name is caused, it is said, by the refusal of the people along the route first selected to subscribe anything to build the road.

JIM, THE PENMAN.

Bell, a Colored Waiter at the Central, Held on a Charge of Check Forgery.

Jim Bell, the colored waiter at the Central arrested election day on charge of forgery, was given a hearing before Judge Wadsworth Thursday and committed to jail in default of \$500 bail for his appearance at the next term of the Circuit Court. Bell presented a check at the First National Bank for \$18, signed "Hechinger & Co.," payable to the "Central Hotel Co." and endorsed "Central Hotel Co." On being told the company would have to O. K. the check, Bell left and returned shortly with this endorsement on it "O. K."—"H. D." He was then given the money and disappeared.

Shortly afterwards it was discovered that the check was a forgery. Policeman Rosser was notified and it was learned that Bell had gone to his home on Hord's Hill, but had come back down town. It was nearly time for a west-bound train, and Mr. Rosser made a record-breaking trip to the depot. The train was just on the point of pulling out when the officer reached the conductor and had him to wait until he could go through the coaches.

Bell was captured and in his pockets was found \$12.75 of the money. His next trip will probably be to Frankfort.

WRECK ON THE C. & O.

Four Persons Killed and Seventeen Others Injured.

CHARLOTTESVILLE, Va., Nov. 5.—The Chesapeake and Ohio vestibule express, known as the F. F. V., from Cincinnati to Washington, was wrecked near Old Shadwell, five miles east of this place at 1:25 yesterday afternoon. Four persons were killed and 17 injured.

THE DEAD.

Henry Burnett, colored porter, Keswick, Va.

An Italian woman named Merara and infant, believed to be from Cincinnati. Felix Mareno, died after removal to Charlottesville.

THE INJURED.

Moses Goldblatt, Cincinnati, knee cap fractured.

Conductor S. C. Buxter, legs injured.

Engineer Duke, dangerously hurt.

Baggage man Pers, Gordonville, Pa., badly hurt from shoulders down, probably internally injured.

A. Merara, badly hurt.

Mary Mareno, hurt about the head, but not seriously.

Two small children of Mary Mareno, one badly.

W. L. Gochener of Stuart's Draft, Va., right hand out.

J. N. Miller of Washington, Pullman conductor, painfully hurt in the back.

Richard Berkley, Hanover, Va., express messenger, bruised about the body, and badly shocked.

John N. Haig, Baltimore, knee sprained slightly.

Mrs. Busch, 411 West 11th street (presumably of New York), bruised about head, not seriously.

J. W. Elder, Washington, D. C., head and nose considerably bruised.

C. R. O'Brien, Louisville, Ky., slightly hurt out of the head.

Jonas H. Hinkel, Trenton, Butler county, Ohio, left hip painfully injured.

The cause of the accident has not been definitely ascertained, but it is believed to have been due to spreading rails. The engine left the track on a sharp curve and was hurled against a rocky hill. All of the cars except the dining car and the Richmond sleeping car were derailed. Two cars plunged and foremost down the steep embankment and one of them went into the Rivanna river, which at this place skirts the tracks. The day passenger coach and the express car were badly wrecked.

As the locomotive plunged from the rails and overturned, Engineer Duke was hurled from the cab and crushed under the engine, besides being terribly scalded by escaping steam. He was rescued by his fireman and the conductor.

As soon after the crash as possible the uninjured passengers and trainmen began the work of rescue and aiding the injured. Word was sent to this place and a wrecking train with physicians was immediately dispatched to the scene of the wreck.

The body of Henry Burnett, the colored porter, was the last recovered. He was terribly mangled, having been in the baggage car. A foot supposed to have been his was first recovered and later a portion of the head. The body was literally dismembered.

Mareno had both legs cut off and died at the hospital at Charlottesville.

Among the uninjured passengers on the train were Senator Orrville H. Platt of Connecticut, Commissioner of Pensions H. Clay Evans and Representative Walter Evans of Louisville.

USED A SHOTGUN.

Drunken Man Kills a Sateonist and Shoots Two Other Men.

LOGANSPORT, Nov. 5.—John McIntosh killed Frank Pottmeyer yesterday afternoon and wounded Will and Louise Pottmeyer. Frank Pottmeyer is a saloon-keeper, and he put McIntosh on because he was drunk. McIntosh left, vowing vengeance, and returned with a double-barreled shotgun. He emptied two loads into Frank's breast and reloaded, shooting Will in the right arm and Ed in the left arm. He again reloaded and shot Louise in the back. The wounded people will live.

During the melee Will shot McIntosh in the abdomen with a revolver, but the ball struck a rib and glanced off. McIntosh was arrested by the police after holding them at bay for 10 minutes.

On account of the cowardly assault mob violence is feared.

MUCH WANTED MAN.

Warrant Sworn Out For a Man by His Own Brother, Charging Robbery.

MARTINSVILLE, Ind., Nov. 5.—John Hicks is a much wanted man in this county. His brother, Samuel, swore out a warrant for him, charging him with planning a scheme to rob him. A week ago robbers entered the home of Samuel Hicks, in this county, and, after securing tying the family, they looted the house and took \$140 from Samuel Hicks, and ate all the pumpkin pie and milk they could find.

Guy Van Tassel of the recent Hinshaw murder case and James Gorman, a cigarmaker of Indianapolis, are both in jail here, charged with the robbery. They were in the penitentiary at the same time that John Hicks was serving a term for stealing cattle in Vigo county.

ANDERSON, Ind., Nov. 5.—Marion Chapman, Ole Weidner and Will Hunsinger and wife, all country people, have entered upon endless litigation proceedings and trouble over a duck that still lives. The duck fell into an open cistern on Chapman's farm and it took all four several hours to get it out. A fight resulted, suits for damages and criminal counts were brought and now there is a complication that includes several actions against each party to the fight.

Threatening weather with showers; colder in western portion; increasing southerly winds, becoming westerly; brisk to high on the lake.

Possible Decay of the French Cuisine.

The tendency in all the French restaurants of the present day is to prepare meals for their chance customers who may happen in at any time of the day. Meals are eaten in a greater hurry than formerly, even in France, where it used to be the habit during the fiercest revolutionary and communistic struggles when the time of dejeuner came for each side to stop fighting for an hour or so and devote themselves to the midday meal. The hurry and anxiety of modern life are slowly destroying whatever was distinctive in French cooking, which cannot be properly done in haste or when food is required in very large quantities.

The development of club life is partly responsible for this, and the latter is only another sign of the deep lying social problems which confront modern existence at every step. Men in fashionable society dine more frequently at the club than they do at their own homes. Fewer people marry than formerly. Home life is decreasing and club life increasing. Hence the last refuge of the Parisian chef is at the fashionable clubhouses, which are now counted by the score, and most of which set very good tables.—Chautauquan.

Unreasonable Civility.

A northern visitor in Atlanta was walking with his host in the garden the other morning, when they came upon the gardener, an old negro of 70 years.

"This," said the host, "is Moses, an old family servant."

"Mr. Moses," said the northerner, extending his hand and touching his hat, "I am happy to meet you."

The old negro, ignoring the proffered hand, threw his own hat on the grass and, pulling at his wool, made a low obeisance.

When the guest was gone, he approached his employer and former master. "Marso Jim," he said, "ain't do 'lection done over?"

"The election?"

"Yes, sah; do votin'?"

"Of course. Why do you ask?"

"Bekase," said the puzzled old fellow, "dat's de fast white man dat li' he hat ter me en try ter shake hands out o' season. Dey sholy is somepin up."—Atlanta Constitution.

Low Tide When the Moon Rises or Sets.

There is one point in the Chesapeake bay where the tide has a definite period to change, and that is the mouth of Hoopers strait, half way between the Capes, at its mouth, and Turkey point, at its head. It is always low tide at Hoopers strait when the moon rises or sets. At the same time it is high tide at Sandy point, up the bay, and at New point, mouth of York river, at the same moment, and at every point below the York river and out at the Capes it is ebb tide at the same time, and at every point from New Point Comfort to Hoopers strait it is flood tide at that time, and at every point between Sandy point and Hoopers strait it is ebb tide at that time, or when the moon rises or sets, and at all points above Sandy point it is flood tide, even to the head of tide water in every tributary of the bay above Sandy point.—Baltimore American.

Accident on the Race Track.

SAN FRANCISCO, Nov. 5.—At the Ingleside track yesterday, while Bert Ostrander was exercising E. M. McCormick's horse Thyme, Nick Hall's colt Corriente, with St McLain up, dashed into him and both animals and jockeys were thrown down. McLain escaped injury. Ostrander, however, fell upon the track on his head, sustaining concussion of the brain, which is likely to prove fatal. Thyme was badly shaken up, but Corriente ran eight miles after the accident and dropped in his tracks from sheer exhaustion.

Mergenthaler's Loss.

DEMING, N. M., Nov. 5.—The winter residence of Otto Mergenthaler, the inventor of the linotype type-setting machine, was totally destroyed by fire here yesterday. Mr. Mergenthaler lost all his personal property and many valuable papers, including the drawings for a new type-setting machine. The property was owned by Colonel James A. Lockhart of Colorado Springs, Colo., and was valued at \$20,000. Mr. Mergenthaler was spending the winter in Deming, hoping to be benefited in health.

Relief for Miners.

ANDERSON, Ind., Nov. 5.—The county federation of labor has forwarded to the striking coal miners at Washington, Ind., \$50 for relief. Several of the local unions have donated cash to the miners, in all amounting to about \$200.

Hazy twilight dies away.

Fall the curtains of the day,
And the night moves slow on high,
Lighting star lamps in the sky;
Just the time of day for me,
Out on the veranda
With Miranda!

Wonderous sights of night can stir

The soul of me and the soul of her.
Yet with eyes upon the stars
I'm not free from earthly jars.
Silence may correct appear.
There's another fellow here—
Out on the veranda
With Miranda!

The Hicks 1898 Almanac and Paper.

We are informed that the 1898 almanac of Prof. I. R. Hicks is now ready, and judging from its past history, it will not be many weeks in finding its way into homes and offices all over America. It is much larger and finer than any previous issue. It contains 116 pages, is splendidly printed and illustrated on fine book paper, having the finest portrait ever given of Prof. Hicks. It can no longer be denied that the publications of Prof. Hicks have become a necessity to the family and commercial life of this country. His journal, "Word and Works," aside from its storm, weather and astronomical features, has taken rank with the best literary, scientific and family magazines of the age. Do not believe hearsay and reports. See the Hicks almanac and paper for yourself. You will then know why they are so popular. They are educators of the millions and unrivaled safeguards to property and human life. It is matter of simple record that Prof. Hicks has foretold for many years all great storms, floods, droughts and tornadoes, even the recent terrible drought over all the country. The almanac alone is 25 cents a copy. The paper is \$1 a year with the almanac as a premium. Send to Word and Works Pub. Co., 2201 Locust St., St. Louis, Mo.
